Chan to the President and Faculty of Armour Institute of Technology for the Degree of Bachelor of Science in Mechanical Engineering, Having Completed the Prescribed Course of Study in Mechanical Engineering May 25, 1911 Pressure gauges that are commonly used in power plants and laboratories are the Bourdon metal tube gauges and the corrugated diaphragm gauges. The accuracy of these are well enough for the ordinary commercial engineering practice; but, where an error of one or two pounds means the acceptance or rejection of a large contract, it is clearly soon that an absolutely accurate pressure gauge is necessary. The work of this thesis is the construction and calibration of a new type of pressure gauge. The aim is to study and eliminate the various causes that may effect its true indications. It is the hope of the author that this may be of value and the gauge of such accuracy as to help the solving of the...
