Progressive Press, United States, 2014. Paperback. Book Condition: New. 246 x 170 mm. Language: English . Brand New Book ***** Print on Demand *****.Our progressive philosophy calls for more freedom and more prosperity for more people. Yet author Kevin Galalae says you can't always have more. Overpopulation is making us victims of our own triumphs over nature. Lacking a popular consensus to control population, the ruling elite have resorted to covert means. Their depopulation project has had considerable success, but at a terrible cost. Strict secrecy and deception have been necessary to prevent the masses from discovering the bitter truth that for the past 68 years they have been the object of a silent and global offensive, a campaign of attrition that has turned the basic elements of life into weapons of mass infertility and selective death. The birth of nearly two billion people has been prevented and the death of half a billion hurried. While these goals have been intentional, the architects of the Global Depopulation Policy have unintentionally undermined the genetic and intellectual endowment of the human species and have set back eons of natural selection. We are adding a billion people every 10 - 15 years, while consumption per person has skyrocketed - placing unsustainable demands on resources like water and fuel. The only decent alternative is voluntary population control to reduce world population. Here are the methods actually being used. - Contraception and abortion. Chemical sterilization: Flouridation, BPA-contaminated plastic and metal food packaging. Drawbacks: increase in chronic illnesses and lowering of IQ will lead to massive degeneracy in a couple generations. - The coercive one child policy -- overall a success story for China; surgical sterilization in India. - Biological: synthetic HIV virus in Africa, flu viruses, GMO crops. Lowering human fertility, while weakening the...
