## Fluke: Or, I Know Why the Winged Whale Sings

By Christopher Moore

Harper Perennial. Paperback. Book Condition: New. Paperback. 321 pages. Dimensions: 8.9in. x 5.8in. x 1.0in. Just why do humpback whales sing? That's the question that has marine behavioral biologist Nate Quinn and his crew poking, charting, recording, and photographing very big, wet, gray marine mammals. Until the extraordinary day when a whale lifts its tail into the air to display a cryptic message spelled out in foot-high letters: Bite me. Trouble is, Nate's beginning to wonder if he hasn't spent just a little too much time in the sun. Cause no one else on his team saw a thing -- not his longtime partner, Clay Demodocus; not their saucy young research assistant; not even the spliff-puffing white-boy Rastaman Kona (n Preston Applebaum). But later, when a roll of film returns from the lab missing the crucial tail shot -- and his research facility is trashed -- Nate realizes something very fishy indeed is going on. By turns witty, irreverent, fascinating, puzzling, and surprising, Fluke is Christopher Moore at his outrageous best. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.

### Reviews

*This publication will never be effortless to get started on reading through but very entertaining to read through. It normally is not going to expense too much. I discovered this publication from my dad and I encouraged this book to find out.*

*Without doubt, this is actually the very best function by any article writer. It was written quite flawlessly and valuable. Once you begin to read the book, it is extremely difficult to leave it before concluding.*
