St Martin's Press, United States, 2013. Paperback. Book Condition: New. Reprint. 170 x 104 mm. Language: English. Brand New Book. Secondworld Jeremy Robinson Lincoln Miller, an ex Navy SEAL turned NCIS Special Agent, is sent to Aquarius, the world's only sub-oceanic research facility, located off the Florida Keys, to investigate reports of ocean dumping. A week into his stay, strange red flakes descend from the surface. Scores of fish are dead and dying, poisoned by the debris that turns to powder in Miller's fingers and tastes like blood. Miller heads for the surface, ready to fight whoever is polluting on his watch. But he finds nothing: no ships, polluters, oxygen. Cut off from the rest of the living world, Miller makes his way to Miami where he discovers a lone survivor and the awful truth: the strange phenomenon that robbed the air of its life-giving force was an attack by an enemy reborn from the ashes of World War II. And they're just getting started. Miami, Tel Aviv, and Tokyo have all been destroyed. And if Miller can't put a stop to those responsible in seven days, the rest of the world will be next.
