Developed based on career experience in health care finance along with months of detailed research into various Medicare programs, How to Start Your Journey with Medicare offers a comprehensive narrative map for baby boomers and those approaching 65 years of age. Rather than just a dump of facts and statistics, it features clear, current data as well as guidance. How to Start Your Journey with Medicare details how the private insurance companies obtain Federal funds with pros and cons of the choices available. In addition to a thorough overview of the program, the book stresses making appropriate choices when signing up for Medicare, because a plan that works for one person may not necessarily be the best for another. Ultimately, the book focuses on giving you a sense of empowerment over your Medicare future, guiding you through a complicated system and providing the knowledge necessary to make.
