

Wood-Carving (Paperback)

By Lecturer in English George Jack

Createspace, United States, 2014. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.In issuing these volumes of a series of Handbooks on the Artistic Crafts, it will be well to state what are our general aims. In the first place, we wish to provide trustworthy text-books of workshop practise, from the points of view of experts who have critically examined the methods current in the shops, and putting aside vain survivals, are prepared to say what is good workmanship, and to set up a standard of quality in the crafts which are more especially associated with design. Secondly, in doing this, we hope to treat design itself as an essential part of good workmanship. During the last century most of the arts, save painting and sculpture of an academic kind, were little considered, and there was a tendency to look on design as a mere matter of appearance. Such ornamentation as there was was usually obtained by following in a mechanical way a drawing provided by an artist who often knew little of the technical processes involved in production.
